I-20 and West of Carrier Parkway)
Grand Prairie, Texas 75052
Tel: 972-237-5772

PURPLE MARTINS

John Pearson, our survey specialist, has been working hard on collecting the PM colony data from our members' martin sites for the year 2010 martin season. Now he will present the results in his power point presentation. We will learn of our success in the preservation of our wonderful Purple Martins. The PMLNT organization is very happy do have this data already for several years and will share it with the PMCA organization this year.

We do also address any important Purple Martin questions you might have.

As always we hope you can bring a Martin landlord friend with you.

Please visit our PMLNT Website:
